

ANTONIO SOUZA

FRONT-END WEB DEVELOPER

0403 029 544 | antonyuri26@gmail.com | Sunshine Coast | [linkedin.com/in/antonio-souza26](https://www.linkedin.com/in/antonio-souza26)

CAREER SUMMARY

As an enthusiastic Front End Web Developer, I'm eager to contribute my analytical and technical skills in a dynamic, client-focused team. Passionate about learning and applying new technologies, I'm seeking an entry-level opportunity to make a tangible impact. I bring a strong understanding of HTML, CSS, and JavaScript, as well as proficiency in ReactJS, Redux, and WordPress development.

Familiar with CSS frameworks like Bootstrap, and pre-processors such as SASS and RESTful APIs, I can effectively multi-task in a fast-paced environment while maintaining an emphasis on quality. My strong problem-solving, communication and collaboration skills enable me to work seamlessly with other developers. I am also committed to staying up to date with new software and technologies to better contribute to the team. Currently, I'm preparing for the AWS Cloud Practitioner exam to further expand my skill set and stay competitive in the field.

EDUCATION

AWS Cloud Practitioner	<i>Current</i>
Certified Scrum Professional - Professional Scrum Master™ I (PSM I)	<i>2023</i>
Bachelor of Electrical Engineering / University of Science and Technology / Brazil <i>Major in Telecommunications and IT</i>	<i>2007</i>

PROFESSIONAL EXPERIENCE

FRONT END DEVELOPER **February 2023 – Current**
The Thrive Project

THRIVE Project is a purpose-driven social enterprise dedicated to promoting the long-lasting well-being and 'thrivability' of all people with a vision that encompasses a world transcending sustainability, where harmony exists among all life forms.

- Collaborating with a team of developers on multiple projects, showcasing teamwork and technical expertise as a Front-End Developer at Thrive.
- Currently focused on developing an Account Management System for streamlined administration of new, updated, or removed accounts.
- Skillfully integrated various services into the system, including webmail, Slack, and WordPress accounts, demonstrating versatility and adaptability.

- Spearheading the revamp of the UI Dashboard using React.js, displaying proficiency in modern web development technologies.
- Demonstrated expertise in backend development by creating a new Restful API using NodeJS and successfully integrating it with a revamped UI dashboard, resulting in seamless interoperability.
- Delivering high-quality, efficient solutions by leveraging cutting-edge technologies and best practices in front-end development.

SALES MANAGER & FRONT-END WEB DEVELOPER **Xtreme Safety**

January 2016 – Present

At Xtreme Safety, a WordPress-based WooCommerce store for construction safety equipment in Australia, I have been involved since its 2016 launch, resolving application and performance issues while adding new features and functionalities.

- Skillfully optimised SEO using Yoast SEO plugin and enhanced website loading times by optimising product images, improving user experience.
- Diligently reviewed WordPress security logs using the Wordfence Security plugin and performed manual backups for the entire installation, ensuring data safety and website stability.
- Showcasing creativity and technical expertise by designing and implementing new features and functionalities, conducting website performance tests and troubleshooting content issues.
- Collaborating with cross-functional teams to gather requirements and translate them into effective and user-friendly website designs.
- Monitoring website analytics to identify trends, opportunities for improvement, and assessing the impact of implemented changes on user engagement.

PROJECT COORDINATOR **Bare Demolition**

November 2011 – May 2017

As a Project Coordinator at Bare Demolition, I managed multiple projects simultaneously, offering technical guidance for enhancing demolition methods, service quality, and employee safety.

- Managed multiple demolition projects simultaneously, overseeing financial and operational aspects while providing technical advice to enhance methods and procedures.
- Prioritised employee safety and project risk management, ensuring compliance with Work Health and Safety policies, relevant codes, and regulations.
- Developed site-specific plans, collaborated with Site Supervisors to address engineering scope changes, and monitored project progress to ensure timely completion and budget adherence.
- Secured necessary permits, licenses, and authorisations, while continuously improving safety standards and practices across all projects.
- Delivered comprehensive monthly project reports, transparently communicating financials, program status, and any major issues to stakeholders.

ELECTRICAL ENGINEER **Department of Factory Engineering**

January 2008 – February 2010

As a Junior Electrical Engineer at Caraiba Metais, I focused on designing, implementing, and maintaining projects to boost plant efficiency, reduce environmental impact, and lower maintenance costs.

- Analysed plant performance and maintenance execution to identify priorities for improvement, ensuring optimal efficiency, reduced environmental contamination and minimised costs.
- Collaborated with Senior Electrical Engineers in designing, implementing, and maintaining electrical systems for various industrial processes, adhering to relevant regulations and standards.
- Optimized maintenance plans and strategies to enhance safety, product quality, and cost-effectiveness while addressing plant performance issues.
- Conducted technical assessments, developed project plans, and assisted operational staff in fault-finding and problem-solving.
- Fostered teamwork and collaboration by providing guidance and support to fellow team members and coordinating with other departments to achieve project objectives.
